PROJECTS

FishingLog REST API **Java | Spring Boot | PostgreSQL**

- Built a fishing-log REST API with Java and Spring Boot using controller, service, and repository layers.
- Implemented CRUD endpoints, species and lake filtering, record counts, and top-K catch queries by weight.
- Integrated PostgreSQL persistence through Spring Data JPA with generated IDs and a many-to-one catch-to-user relationship.
- Added creation-request validation for required fields and positive weights; wrote JUnit/Mockito tests for existing and missing catch updates.

Homework Tracker **Flutter | Firebase**

- Implemented assignment entry, completion tracking, and due dates from instructor-provided screen designs.
